

Customer Story

Gallery Of Aesthetics Med Spa

Gallery Of Aesthetics Med Spa is an aesthetic medicine clinic that caters to the demands of their clients regarding anti-aging, skincare, wellness, and beauty. Dermal fillers, Injectables, PDO threads, and laser skin treatment are among the services that the spa offers. The spa consistently updates its menu to include more exciting services for its clients.

The team at Gallery Of Aesthetics truly believes that aesthetic medicine is an art. The spa offers individualized attention to each patient and customized treatment plans that suit the patient's requirements.

Challenge

Gallery Of Aesthetics was formerly associated with a marketing agency whose working style did not suit the requirements of the spa. In 2021, Gallery Of Aesthetics connected with Growth99 to have a faster and more efficient digital marketing experience.

The spa requested that Growth99 build a strong infrastructure and a useful strategy for its online marketing. Before meeting with Growth99, Gallery Of Aesthetics was not getting any returns for the amount of money they were spending on digital marketing and online reputation management.

Solution

Growth99 helped to migrate the functioning of Gallery Of Aesthetics to a brand new and robust website. Strategies suited to the functioning of the spa were implemented for social media marketing and SEO. Paid advertising helped to establish an impressionable online presence for Gallery Of Aesthetics spa.

Gallery Of Aesthetics was able to scale its business thanks to the counseling sessions and services that Growth99 offered them. The spa website began garnering more online views and the website traffic increased considerably in a short amount of time.
