

Customer Story Tenth Avenue Aesthetics

Tenth Avenue Aesthetics is a medical aesthetics clinic offering world-class anti-aging and skin rejuvenation treatment to all its clients. Botox, dermal fillers, and facial therapies are just some of the treatments available to clients at Tenth Avenue Aesthetics. A team of registered nurses, nurse practitioners, and aestheticians strive for perfection while providing cosmetic treatments to their clients. A consultation followed by a custom treatment plan has helped Tenth Avenue Aesthetics build a foundation of happy clients.

Challenge

Tenth Avenue Aesthetics requested Growth99 services to help them with creating a website for its business. The aesthetics clinic wanted to establish a long-lasting impression with the help of the new website. The clinic hoped to garner more online attention and increase the rate of lead generation with help from Growth99. In the Winter of 2021, when Tenth Avenue Aesthetics came in contact with Growth99 for the first time, the clinic did not have adequate online support to scale its business.

Solution

Growth99 migrated the functioning of the Tenth Avenue Aesthetics clinic to a brand new website that was based on a robust infrastructure. Growth99 embedded an impressive CRM strategy in the website to increase the rate of lead generation and lead conversion. Gathering Google reviews from leads and clients helped to increase the web popularity of the Tenth Avenue Aesthetics website.
