

Customer Story

Belle Medical Aesthetics

Belle Medical Aesthetics is an aesthetic medicine clinic offering a variety of anti-aging and rejuvenating skincare services to its clients. Microneedling, PRP, laser treatments, and the not-so-commonly available Morpheus 8 treatment are available at the spa. The staff members create custom treatment plans based on each client's cosmetic requirements. Preserving the clients' natural beauty while enhancing their appearances and self-confidence is given due priority at Belle Medical Aesthetics.

Challenge

Belle Medical Aesthetics contacted Growth99 in the Winter of 2021 to seek assistance scaling its business to the next level. Before its association with Growth99, Belle Medical Aesthetics faced issues with portraying its services and facilities to the public on various online and social media platforms.

Solution

Growth99 created a dynamic website for Belle Medical Aesthetics and designed a reliable infrastructure to support it. The new website, along with robust SEO, worked wonders to increase the rate of lead generation for Belle Medical Aesthetics. The spa began garnering a tremendous online following due to the brand management strategy that Growth99 used.
