

Customer Story

My Face Lounge

My Face Lounge is a premium aesthetic medical spa that offers a number of anti-aging and rejuvenation skin services along with a number of wellness treatments. The team of experts working at My Face Lounge offers nothing short of perfect and the best treatment results to all clients. PDO threads, Microneedling, Chemical peels, and weight loss therapy are some of the treatments that My Face Lounge spa offers.

Challenge

My Face Lounge sought help from Growth99 to establish digital marketing strategies for two different medical spas. When the spa first contacted Growth99 in the Winter of 2021 it did not have a website and no SEO. My Face Lounge wanted to scale its business by garnering more leads and increasing the rate of online bookings.

Solution

Growth99 developed a new website for My Face Lounge with robust SEO backing. The stream of website visitors began increasing and soon the lead generation rate shot up as well. The website of My Face Lounge is garnering tremendous online attention and the spa now enjoys a good reputation among its clients.
