

Customer Story

Atelier Aesthetic Clinique

Atelier Aesthetic Clinique is an aesthetic clinic. Atelier Aesthetic Clinique offers a full range of non-invasive aesthetic procedures including Neuromodulators, Dermal Fillers, PDO Threads, Microneedling, Natural Growth Factor Injections, Vitamin Therapy, etc. All of our treatments are of the highest quality and administered by experienced, licensed professionals. Atelier Aesthetic takes pride in making the patients look and feel their very best.

Challenge

Atelier Aesthetic Clinique started with Growth99 in the winter of 2022 to seek help with marketing and marketing automation. The clinique was looking for a viable marketing/technology partner to help them build up an online web presence from ground zero. The spa wanted to make a name for itself in the world of medical aesthetics and needed to expand its operations on various online platforms. Before Growth99, Atelier Aesthetic Clinique did not have anything from a web presence perspective or technology roadmap from client acquisition to client engagement.

Solution

Atelier Aesthetic Clinique got a brand new and dynamic website thanks to the efforts of Team Growth99. They now have GMB, reputation control, CRM, Google ads, and an effective SEO strategy to grab more attention. As the website started grabbing more attention, it began amassing a great number of leads to convert into long-term clients. The new business website is capable of getting more client bookings and boosting the business.
