

Customer Story

Rejuvenate Wellness and MedSpa

Rejuvenate Wellness and MedSpa is a wellness spa that offers holistic treatments for weight loss, injectables, facial treatments, laser services, and more. The spa offers its clients an uplifted, encouraged, and rejuvenated treatment. The certified and licensed lifestyle and weight management coaches and doctors are part of the team of experts at Rejuvenate Wellness and Spa.

Challenge

Rejuvenate Wellness and MedSpa connected with Growth99 in the Spring of 2022. They were seeking help with scaling their Medical Spa Practice. The spa had an existing website, though it was not built to scale the business satisfactorily. The old website was challenged with limited exposure to attracting new patients with robust SEO, a great converting website, and automated follow-up.

The website did not have strong SEO backing, resulting in poor online visibility.

Solution

Growth99 developed a robust infrastructure to help Rejuvenate Wellness and MedSpa function smoothly. A successful CRM strategy, robust SEO, and complete Digital Marketing helped the Rejuvenate Wellness and MedSpa website grab more online attention.
